CrystalReach is here!

CrystalReach is Travcom Canada's new web based invoice query and reporting tool, only available to GBO CS subscribers. CrystalReach is the only product of it's kind in Canada. It provides your clients and staff alike, with real-time access to travel data residing in your GBO CS database from any web connected computer from any where around the world.

In addition, any client that books travel with you will also be able to have immediate web access to their itinerary or invoice. They simply enter their last name and document number and instantly get a copy of their Invoice or Itinerary (see attached sample itinerary). So no matter what source you use to book travel, web, GDS, telephone or a combination of all, your clients will be able to print their invoice or itinerary at their leisure from anywhere around the world!

Benefits for your clients

- Easy access to sales data, using a detailed filter, for instant information on any trip booked with your agency.
